

12Weeks™ to STAR SITE or RECERTIFICATION

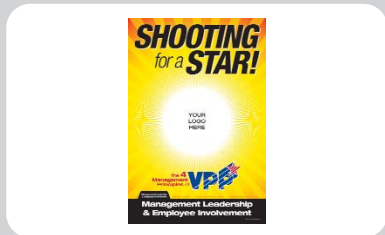

This tool will give your push for Star Site or Recertification *that extra kick*. When completed, your employees will be more motivated as well as better informed. You may select to use the program in its entirety, or have one of our customer service representatives help you tailor it just for you and your budget. One thing is for certain; if your facility is going for VPP Star Site or Recertification, we can help.

The first step is the VPP Tri-Logo which we can customize for you. This will assist your employees in visualizing that to become a VPP Star Site it will take OSHA, employees, and management working together.

WEEK 1

Hang first set of banners and posters of VPP Management Principle #1. A brochure would go out to employees giving them an outline and explanation of how to participate in the upcoming weeks. What is even more important is the brochure will also explain "What's in it for them". Distribute Safety Star decal or Static Cling computer decal to safety department, management and VPP committee. This week we ask that these groups concentrate on catching employees doing something right. The decal will remain as a constant reminder that proper safety is noticed and appreciated.

12 Weeks to Star Site / Recertification

WEEK 2

Distribute your VPP Tri-Logo Pocket Books. This book is the result of years of work to make it the information source for facilities. The book was created with one major thought in mind, ease of reading. We want to make sure your employees have all the information needed to understand the importance and pride that people should feel when they achieve Star status.

Four areas make sure that your employees know this book was created just for them. First, the cover is customized using your new Tri-Logo. Secondly, a page featuring your employee representatives or team leaders' photos, as well as a brief statement of their commitment to VPP. Thirdly, a page displaying management photos and a statement of their commitment. Finally, the back cover can also be used to feature group/committee leaders that are responsible for VPP at your site.

The last development is probably the most important. A four-digit number is applied to the bottom right hand corner of each book. Employees would each have a different number. A drawing would be held one time per week using the numbers on the book. If an employee's number is drawn and they bring their book to the safety department or designated area, they receive an award selected by your company. The numbering of the books and drawings give employees an incentive to keep the book, and not just toss it away.

WEEK 3

Distribute "Safety Your Choice" cards. These cards will help employees stop and reflect on safety. Often when we transfer our thought into writing we resolidify our goals. Once the cards are complete, employees would then drop them off at a central location.

WEEK 4

Hang second set of banners and posters of VPP Management Principle #2. This week you will also distribute the VPP Rotating Message Pens. Have you ever had just a moment with nothing to do? What did you do? If you're like most of us you fidget, and this pen was made for that moment. As you sit there and click (fidget), the 4 Management Principles rotate around the barrel and appear in the window of the ink pen.

WEEK 5

This week would be the first distribution of VPP Lotto-To-Learn Cards. Forty (40) different cards on your VPP book would be distributed by department or by group. This assures no two employees receive the same card. Employees are encouraged to answer 4 questions correctly. If they happen to miss one they're still not out. All they have to do is, turn the card over and write out the complete correct answer and they still win. Once completed, the card is dropped off at the designated location. The VPP committee would look at incorrect answers on back to determine any weak points in employees understanding of VPP.

WEEK 7

Employees receive their Hazard Recognition Cards. Employees will have 2 weeks to identify a safety hazard in their work place. They would write the hazard on their card and return it to the designated location. The VPP committee and safety department would then review the cards and decide if the hazards recorded require action or awareness.

WEEK 11

Distribute VPP glitter decals/static cling computer decals/VPP lapel pins.

WEEK 12

During this week ALL cards are due to be turned in and will be sent to AIM for tabulation. At the program end, AIM will create a statement listing how many activities the employee participated in and mail it to their homes. Employees who participate more receive a higher valued product. AIM would then order the products each employee earned and package them by department by shift for ease of distribution.
